INDICE

Does this happen to you too?

I have a web3 idea!

But I don't know how to start or who has the experience to do it

I have few technical resources

I need to increase the team to improve quality and speed

I need a guide

I need people with verify experience to have a potencial on my business

I need talent people for my enterprise

I need people with verify experience to have a potencial on my business

dApps development

Blockchain labs

Automovile Insurance Purchase

The solution was using Hyperledger Fabric 1.0 as a Blockchain platform. We developed chain codes for information tracking.

IoT   See case ->

Offchain payment solution

We have developed an off-chain payment system that supports thousands of transactions per second.

Payment   See case ->

Blockchain Recording Transactions

Lamden needed an application that could serve as a managed and decentralized ledger for USD tokens.

Payment   See case ->

Financial Inclussion Throught Blockchain

Mobile application that helps those who do not have access to financial system.

Payment   See case ->

Igaming

Provide and a 1:1 correspondence on every exchange done

Gaming   See case ->

Global Donation Plataform

Infuy was part of the team that developed an application for accepting global donations.
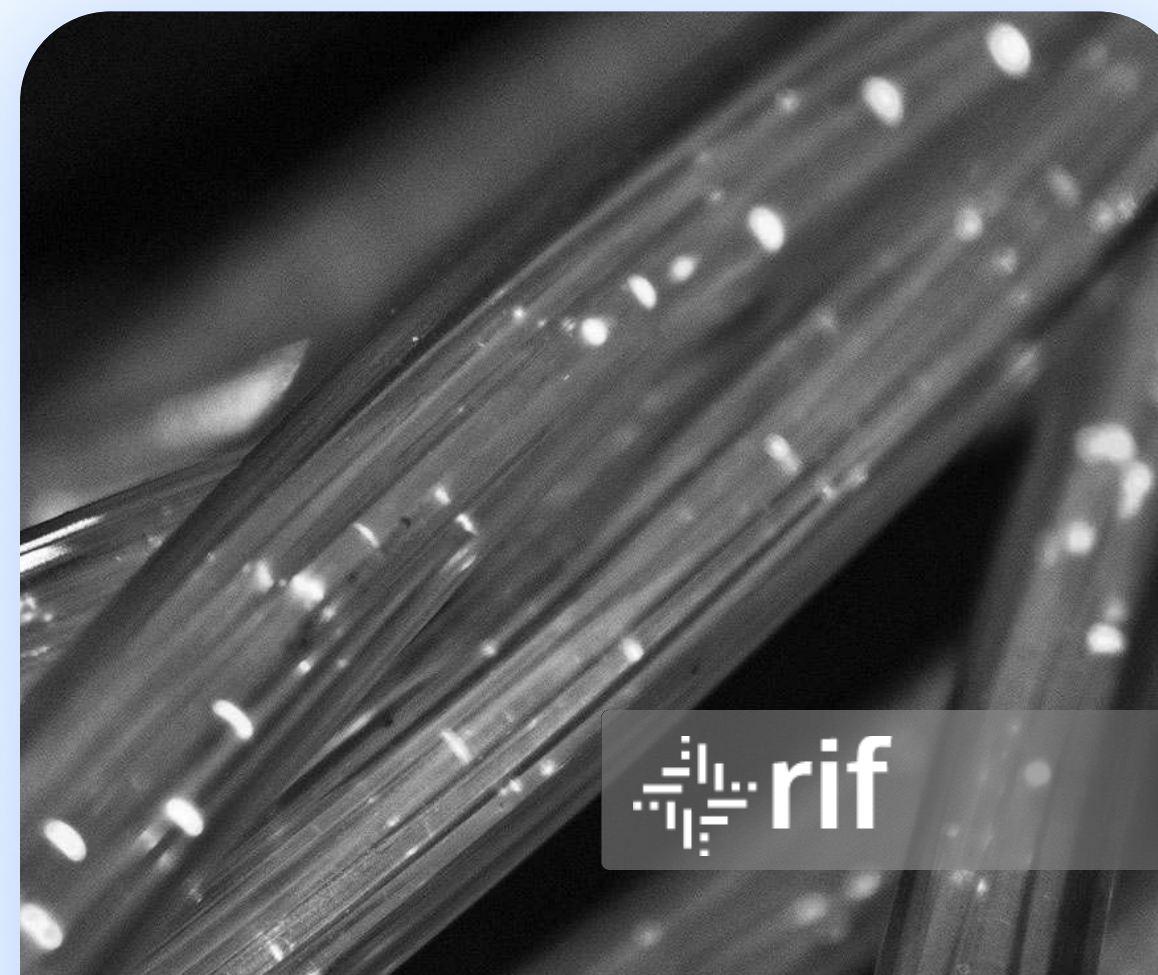

Payment   See case ->

STUDY CASES

DiDi

It was a team of 4 people, which was divided into 3 groups: Alexa app, Backend API and frontend application.

rif

Using an agile approach, we executed sprints in length to quickly demonstrate our abilities and receive prompt feedback for iterative development.

BitGive

The project was managed in an agile fashion through JIRA working with sprints that were two weeks in length along with daily meetings.

CULTURE

- We create a **collaborative** environment.

- We broaden your horizons **encourage** and **build up** yout teammetes.

- We **take charge** and use obstacles as stepping stones.

- **Honest** and **transparent** communication.

- Every action has its consequence. **Own** up your mistakes and **share** your victories with your team.

- **Accountability**, **integrity** and **commitment** will never go out of style.
